# Medication Schedule Planner

Use this planner to organize current medication directions into a practical daily routine. Do not change timing or directions without guidance from the appropriate clinician or pharmacist.

| Family member: | | Updated: | |
|---|---|---|---|

**Start with current written instructions.**
If two medication sources disagree, pause and get clarification before placing the medicine into the schedule.

## Daily Medication Schedule

| Routine / Time | Medication | Dose / Form | Current Directions | Special Instructions |
|---|---|---|---|---|
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |

Use current written instructions only. Date any revised schedule so caregivers can identify the current version.

# As-Needed (PRN) Medicines - Keep Separate

| Medication | Current PRN Directions | Where PRN Log Is Kept |
|---|---|---|
| | | |
| | | |
| | | |
| | | |

# Questions / Clarifications Needed

| Medication / Item | Question | Who to Ask | Resolution / Date |
|---|---|---|---|
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |

Educational and organizational only. Follow individualized medication instructions provided by the healthcare professionals involved in care.
